

**Toxics Reduction Act - Public Report  
2015**

The legal and trade names of the owner and the operator of the facility, the street address of the facility and, if the mailing address of the facility is different from the street address, the mailing address.(See below)	Shell Canada Products Sarnia Manufacturing Center 150 St.Clair Parkway Corunna, ON N0N1G0		
Facility NPRI identification number	3962		
The identification number assigned to the facility by the Ministry of the Environment for the purposes of Ontario Regulation 127/01.	7043		
Number of full-time employees	439		
North American Industry Classification System (NAICS) - 2, 4, and 6 digit codes	31-33	3241	324110
If applicable, the name, position and telephone number of the individual who is the contact at the facility for the public: Public Contact (if applicable) Title Phone Number Email	Mr. Randy Provencal Communications Manager (519) 481-1850 randy.provencal@shell.com		
Address of each person below if not the same as the facility Facility Name Address 1 Address 2 City Province Postal Code	Same as facility		
UTM coordinates Zone	E: 381730	N: 4751235 17T	
Legal name of Canadian parent company, if your facility is a subsidiary of a Canadian parent company Parent company name Address City Province Postal Code Percent Ownership	Shell Canada Ltd 400 4th Avenue Calgary		AB T2P 0J4 100

As of June 1, 2016, I certify that I have read the report on the toxic substance reduction plan(s) for benzene, ethylbenzene, naphthalene, toluene, xylene, cadmium, lead, mercury, benzo(a)anthracene, fluoranthene, phenanthrene, pyrene, methanol, tetrachloroethylene, sulphuric acid, asbestos, 1,2,4-trimethylbenzene, ammonia, isopropyl benzene, cyclohexane, diethanolamine, ethylene, n-hexane, hydrogen sulphide, iso-propanol, propylene, total reduced sulphur, fluorene, light aliphatic naphtha, propane, butane, butene, heptane, octane, pentane, pentene, acetone, total particulate matter, PM10-particulate matter, PM2.5-particulate matter, nitrogen oxides, sulphur dioxide and carbon monoxide, and I am familiar with their contents, and to my knowledge the information contained in the report(s) is factually accurate and complies with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act.

  
 Karen Miller  
 General Manager - Shell Sarnia Manufacturing Center

Date May 30, 2016

**Shell Canada Products - Sarnia Manufacturing Centre**

**Toxics Reduction Act**

**Public Summary Reports**

**2015**

Substance Information and Plan Objective				
Substance Name	<b>Benzene</b>			
CAS #	71-43-2			
Report Date:	1-Jun-16			
Plan Date:	31-Dec-12			
Plan Objectives and Targets	While Shell SMC does not intend to reduce the use or creation of Benzene, the plan was developed with the following objectives. We will continue to operate in full compliance with all applicable environmental regulations; and we will continue to manage releases of Benzene through current and future pollution prevention and best management practices.			
Toxics Substance Accounting and Comparison				
Pathways	2014	2015	Delta	Delta %
Units reported	Tonnes	Tonnes		
U - Enters the Process (Raw Materials)	>10,000 to 100,000	>10,000 to 100,000	>1000 to 10,000	19%
C - Created	>1000 to 10,000	>10,000 to 100,000	>1000 to 10,000	13%
P - In a product that leaves the process	>10,000 to 100,000	>10,000 to 100,000	>1000 to 10,000	17%
Summary of reasons for changes between current year and previous year.	Increased amount entering and created in process, and leaving in products.			
On-site releases from the facility to air, water and land, as well as on-site and off-site disposal and recycling, can be viewed by searching for this facility at <a href="http://www.ec.gc.ca/inrp-npri/default.asp?lang=en">http://www.ec.gc.ca/inrp-npri/default.asp?lang=en</a>				
Progress in Implementing Plan				
Summary of steps taken during the previous calendar year to implement the plan and a summary of the toxics reductions achieved as a result of the steps taken.	No Steps			
Summary of additional actions taken during the previous calendar year that impacted the toxic, and a summary of the steps and toxics reductions achieved as a result of those actions.	No additional actions			
Summary of differences between steps taken and those set out in the plan.	No differences			
Description of amendments to the plan.	No amendments			

Substance Information and Plan Objective				
Substance Name	Ethylbenzene			
CAS #	100-41-4			
Report Date:	1-Jun-16			
Plan Date:	31-Dec-12			
Plan Objectives and Targets	While Shell SMC does not intend to reduce the use or creation of Ethylbenzene, the plan was developed with the following objectives. We will continue to operate in full compliance with all applicable environmental regulations; and we will continue to manage releases of Ethylbenzene through current and future pollution prevention and best management practices.

**Progress in Implementing Plan**

Summary of steps taken during the previous calendar year to implement the plan and a summary of the toxics reductions achieved as a result of the steps taken.	No Steps
Summary of additional actions taken during the previous calendar year that impacted the toxic, and a summary of the steps and toxics reductions achieved as a result of those actions.	No additional actions
Summary of differences between steps taken and those set out in the plan.	No differences
Description of amendments to the plan.	No amendments

<b>Substance Information and Plan Objective</b>				
Substance Name	<b>Sulphuric Acid</b>			
CAS #	127-18-4			
Report Date:	1-Jun-16			
Plan Date:	31-Dec-12			
Plan Objectives and Targets	While Shell SMC does not intend to reduce the use or creation of Sulphuric Acid, the plan was developed with the following objectives. We will continue to operate in full compliance with all applicable environmental regulations; and we will continue to manage releases of Sulphuric Acid through current and future pollution prevention and best management practices.

<b>Progress in Implementing Plan</b>				
Summary of steps taken during the previous calendar year to implement the plan and a summary of the toxics reductions achieved as a result of the steps taken.	No Steps			
Summary of additional actions taken during the previous calendar year that impacted the toxic, and a summary of the steps and toxics reductions achieved as a result of those actions.	No additional actions			
Summary of differences between steps taken and those set out in the plan.	No differences			
Description of amendments to the plan.	No amendments			

<b>Substance Information and Plan Objective</b>				
Substance Name	<b>Butene (all isomers)</b>			
CAS #	25167-67-3			
Report Date:	1-Jun-16			
Plan Date:	31-Dec-13			
Plan Objectives and Targets	While Shell SMC does not intend to reduce the use or creation of Butene, the plan was developed with the following objectives. We will continue to operate in full compliance with all applicable environmental regulations; and we will continue to manage releases of Butene through current and future pollution prevention and best management practices.
